

INVITATION TO ATTEND

SUPA KNOWLEDGE TRANSFER SHOWCASE 2008

27 February 2008, Glasgow, Scotland

The Scottish Universities Physics Alliance, SUPA, brings together over 1000 physicists from eight universities working in many different areas of research, with an annual turnover in excess of £30M. With world-leading academics and significant applied research, SUPA has the knowledge and resources to strongly impact business innovation and growth.

The SUPA KT Showcase 2008 will provide direct access to front line academics managing facilities and generating results with real value to business. As well as highlighting 30 of the best, most relevant physics research projects, outcomes, and facilities, it also includes a programme of short, high impact talks, many from industry, dealing with contemporary KT, its challenges and rewards.

KEYNOTE SPEAKERS:

Gillian McFadzean

Gillian chairs the board of ProTon Europe, the largest international organisation for KT in Europe, representing over 600 universities and their KT activity.

Philip Graham

Philip is the Executive Director of the Institute of Knowledge Transfer, an organisation dedicated to meeting the needs of people involved in KT.

Margaret McGarry

Margaret is a Senior Director of Scottish Enterprise, with enormous experience at the interface between industry, government and university R&D.

BREAKOUT SESSION SPEAKERS INCLUDE:

Allan Colquhoun, Selex Sensors and Airborne Systems
Brendan Hyland, Chair, Wireless Fibre Systems Ltd
Graeme Malcolm, Chief Executive, M² Lasers Ltd
Arthur Trew, Edinburgh Parallel Computing Centre
Mark Walsh, MD, Piezo Composite Transducers Ltd

Julian Dines, UK Astronomy Technology Centre
Tim Holt, CEO, The Institute of Photonics
Siobhan Jordan, Director, INTERFACE
Ifor Samuel, CTO, Lumicure Ltd
Keith Symington, CEO, Conjunct Ltd
